GARDENS

Route 3, Box 200

GRESHAM, OREGON

Warehouse located at the corner of Hogan Road and Palmquist Road in the southeast corner of Gresham, 1½ miles from the center of town.

Alton Splawn and his brother Elmus are the owners and operators of the business started by their father while both brothers were overseas during World War II.

SHIPPING TIME—Orders are shipped at proper planting time unless a shipping date is given on the order. All orders cannot be shipped at the same time. Should your bulbs arrive before you wish to plant, unpack at once and store in a cool dry place.

PREPAID—All prices quoted include delivery by prepaid parcel post or express except on orders of less than \$2.00. Kindly include 25¢ extra on these small orders to cover cost of packing.

Do not send money for sales tax.

Look for your extra bulbs. You will be surprised at the number.

TERMS—Cash with order, personal check, Express or money order. Stamps are acceptable in payment of small orders.

C.O.D. ORDERS—We cannot accept C.O.D. orders, as it slows us down at a very busy season, increases our operating expenses and costs you an additional C.O.D. fee. Our money-back guarantee is your assurance of satisfaction.

GUARANTEE—Since your growing conditions are out of our control we give no warranty either express or implied as to the results of the planting and growing of any bulbs we ship. In no case will we be responsible for more than the purchase price. **WE DO GUARANTEE** all our bulbs to be true to name and disease free. If for any reason you are not completely satisfied when the bulbs arrive, return immediately and the purchase price will be refunded, together with the cost of shipping.

SIZES—(All measurements are diameter, or across) No. 1, 1½" and up; No. 2, 1¼" to 1½"; No. 3, 1" to 1¼"; No. 4, ¾" to 1"; No. 5, ½" to ¾". Large is No. 1 and No. 2; Medium is No. 3 and No. 4.

WHAT SIZE SHALL I BUY?—The large size will, of course, make the best spikes and give the best results; however, if you wish to economize, the medium size will give excellent results, especially if they are fed and watered. They will bloom to the last bulb and make a good-sized spike, although the flower head may not be as long as that of the large size.

GLADIOLUS CULTURE

First of all have good bulbs to start with. Gladiolus can be planted as early in the spring as the ground can be worked and up to the last of June. By planting at intervals the blooming season can be continuous from June until freezing weather.

FERTILIZING—While glads will respond fine on a good rich garden soil they should not be fertilized heavily. A heavy application of fertilizer not only doesn't seem to help them, it sometimes actually seems to harm them. If you think something should be put on, give them a light application of commercial fertilizer or a little manure, but do not allow any of either to come in contact with the bulbs.

SOIL—Any kind of soil will do. They do not like wet feet, so it should be well drained. A little water will help and on well drained soil give them a lot of water as they come into bloom and you will be amply rewarded with lots of fine long spikes.

Do not plant near strong growing plants or trees. They will rob the soil of moisture and plant food.

SPRAY OR DUST when the glads are about ten inches high and repeat every week or ten days until just before they bloom. 5% DDT is about the simplest and best.

CUT THE FLOWERS if you want to, but leave four leaves to produce the bulb.

DIG a month or so after blooming or later if they are still green. Do not pile bulbs more than four inches deep. Dust with DDT lightly.

DRY in an airy place. Heat will help to remove the moisture. When dry (two or three weeks) remove the roots and dust again with DDT. After another two or three weeks of drying store for the winter in a cool airy place. Keep from freezing.

BEFORE planting it is well, though not essential, to dip the bulbs in a solution of Lysol, one tablespoonful per gallon of water, for three hours.

GLADIOLUS CLASSIFICATION

ABU HASSAN

BLUE BEAUTY

ABNAKI (Funk) (21) (Early)

Deep vivid orange that stands the hottest sun without fading. Opens 5-6 well placed blooms on a medium tall plant. Fine early orange and just as good when planted late for fall bloom.
Large 3 for 25c; Doz. 80c; 100 \$5.00
Medium 4 for 25c; Doz. 60c; 100 \$4.00

ABU HASSAN (Pfitzer) (378) (Early)

Clear dark blue. Opens several medium size blooms on a tall straight plant. This is the most popular dark blue on the market now.

Large 3 for 25c; Doz. 80c; 100 \$5.00
Medium 4 for 25c; Doz. 60c; 100 \$4.00

ALADDIN (Palmer) (523) (Midseason)

Bright salmon with cream blotch. Opens 8-10 huge ruffled gorgeous blooms on a long head. The only fault with this variety is that it is sometimes short.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

ALGONQUIN (Palmer) (536) (Early)

Brilliant glowing scarlet. 8 or more wide open ruffled and needle point blooms open on a tall spike. An old standard variety that many growers still consider the best scarlet.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

BAGDAD (Palmer) (580) (Midseason)

Smoky old rose. A very old glad, but still one of the best smokies.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

BARCAROLE (Palmer) (424) (Late)

Beautiful distinctive clean shade of light orange. Opens 6-7 heavily ruffled blooms. Not tall but the color more than makes up for any lack of height.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

BIT O' HEAVEN (Crow) (320) (Midseason)

Tall golden orange. Opens 6-8 bright orange florets of medium size on a perfectly straight stem. A fine commercial.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

BLUE BEAUTY (Pfitzer) (476) (Early midseason)

An old medium blue, but still one of the best.

Medium 3 for 15c; Doz. 50c; 100 \$3.20

BRIDAL ORCHID (Carlson) (566) (Early mid-season)

This huge pastel lavender opens ten 6-in. ruffled florets with six more buds showing color on a 22-bud spike. Grows tall and blooms well from all sizes of bulbs.

Large Each \$1.50; Doz. \$15.00
Medium Each \$1.25; Doz. \$12.00

BURMA (Palmer) (562) (Midseason)

Heavily ruffled dark rose blending to a somewhat lighter upper throat and with a beautiful velvety red blotch. Opens 7 or more on a medium height plant. This is about the most beautiful deep rose variety known and extremely popular both for the home garden and as a cut flower.

Large 3 for 25c; Doz. 80c; 100 \$5.00
Medium 4 for 25c; Doz. 60c; 100 \$4.00

CHAMOUNY (Baerman) (460) (Midseason)

Cerise rose with a silver line on the edge of all petals. Opens 10 or more. Beautiful cut flower variety. In big demand.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

COMMANDER KOEHL (Pfitzer) (452) (Midseason)

A well liked dark red. A little darker than Red Charm, but flowers are not as well placed.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

CORAL GLOW (Ellis) (424) (Midseason)

Beautiful deep coral orange. It will fade some in hot weather, but otherwise a fine variety.

Large 3 for 25c; Doz. 80c; 100 \$5.00
Medium 4 for 25c; Doz. 60c; 100 \$4.00

CORONA (Palmer) (560) (Midseason)

Creamy white shading to a cream throat with a rose picotee edge on all petals. This variety is large, strong and a beautiful color and very much in demand.

Large 3 for 25c; Doz. 80c; 100 \$5.00
Medium 4 for 25c; Doz. 60c; 100 \$4.00

"600" SPECIAL MIXTURE

Here is the best bargain in glad bulbs you will find anywhere. We offer you 600 bulbs in a veritable riot of color. These are not culls. Every bulb is carefully hand selected for quality from thirty or more varieties of good flowering stock. This is the size we plant for cut flowers for the wholesale market. At least 90% of them will bloom without irrigation and with a little water they will all bloom. These No. 4 size bulbs ($\frac{3}{4}$ " to 1") will give you nice blooms this year and the choicest of bulbs for next year's planting. Start planting as early as the ground can be worked and plant every two weeks until the last of June and you will have glads blooming until frost.

600 No. 4 Bulbs, Mixed.....\$10.00—100 for \$2.00

PHANTOM BEAUTY (Bastian) (440) (Midseason)
Clear light pink that opens up to 12 medium large blooms with 6 or more showing color. Blooms on the spike are set rather close together and with so many open, a spike makes a whole bouquet. This variety is really good for exhibition and for cut flowers and one that every amateur will want in his garden.

Large Each 10c; Doz. \$1.00; 100 \$6.00
Medium 2 for 15c; Doz. \$.80; 100 \$4.80

PICARDY (Palmer) (530) (Midseason)

Salmon pink with slight feather in the throat. This is the most popular and valuable variety ever produced. It is the one that you see in every florist shop. It has made the Florida gladiolus industry. And though some stocks in the country now are going bad, it is still one of the finest varieties if you can get good clean stock. We have kept our stock clean and now offer the finest available.

Large 3 for 20c; Doz. 65c; 100 \$4.20
Medium 3 for 15c; Doz. 50c; 100 \$3.20

Rainbow Gladiolus Mixture

This is a hand-made mixture and includes all the gladiolus colors in well balanced proportion. All are large bulbs of the same high quality we supply in the separately named varieties.

50 Large Bulbs.....\$1.75
100 Large Bulbs.....\$3.00
200 Large Bulbs.....\$5.50

This Pacific Northwest, with its long growing season, its ideal climatic conditions, and its fine soil is the most nearly perfect bulb growing area in the whole world.

When you buy your gladiolus in this area you are assured of a high quality bulb, but when you buy from Splawn's Gladiolus Gardens you will enjoy still more advantages. We produce a great many bulbs. This year we will have 3,000,000, not counting planting stock. Our bulbs are all carefully hand cleaned and graded, and treated against thrip. They are cured quickly and thoroughly in controlled temperature and humidity, and stored in a specially designed warehouse.

With our large volume we are able to give you better quality by discarding the bulbs that do not quite come up to our high standards of grading.

We can operate on a smaller margin, thus you will find our bulbs priced lower.

For wholesale

We have been fortunate in securing from our good neighbors, COMPTON'S DAHLIA FARMS, a supply of their famous tubers, which are known all over the country for superior vigor and quality. We know you will agree with us when we say they are the best to be had.

Dahlias are among the most popular summer blooms because of their size, rich coloring and intriguing form. Best known are the large decorative and cactus dahlias. We also recommend the miniature and pompon dahlias especially to the gardener who grows his blooms with an eye to cut flowers.

Key to abbreviations:

D—Decorative. Large fully double flowers.

C—Cactus. Quilled sharp pointed petals.

I—Informal. Somewhat irregular.

F—Formal. Regular and symmetrical.

S—Semi, as in semi-cactus.
